Allied & Scientific Health Office (SA Health) – UniSA 2024 Research Capacity Building for Allied Health Clinicians

How to create a network/mentorship

AIM:

- To introduce the concept of establishing networks and developing mentorship for allied health professionals (AHP)
- To showcase the impact of supportive networks and mentorship
- To provide strategies on how to get the most out of networks and mentors

OBJECTIVE:

We often hear about the importance of having good professional networks and mentorship. But how does one go about establishing such networks, finding good mentors and get the most out of such relationships. This training series will provide AHPs with the overview of the how to establish such networks and mentors.

CONTENT:

Why is it important to have professional networks and mentors? What make a good professional network and/or mentor? What are the common issues to avoid when establishing and developing professional networks and mentors.

FORMAT:

Online via zoom, combination of didactic presentation, individual activity and reflection/feedback to the wider group. The sessions will be recorded and sent out to all those who have registered upon conclusion.

Link will be provided following registration.
