**GOOD PSYCHIATRIC MANAGEMENT FOR BPD
~ FOR PRIVATE PRACTITIONERS ~**

This 1 day course offers training in an evidence based
treatment for BPD: Good Psychiatric Management (GPM)

Sept
13

TIME: 8.45am - 5.00pm
VENUE: Mount Lofty House
PRICE: \$450

This one-day course offers training in an empirically validated treatment for borderline personality disorder known as Good or General Psychiatric Management (GPM).

Trainers are formally endorsed by the Gunderson Personality Disorder Institute.

This workshop is for mental health clinicians in private practice working with people with BPD. This generalist approach provides professionals with guidelines they need to become skilled providers who can derive satisfaction from treating people with BPD.

Upon completion of this workshop, participants will be able to:

- Explain the diagnosis to consumers and their families and establish reasonable expectations for change (psychoeducation).
 - Manage the problem of recurrent suicidality and self-harm.
 - Expedite alliance-building.
- Identify when to prioritise BPD treatment and when to defer until a comorbid disorder is resolved.
