

Sunrise EMR & PAS Benefits for patients

01 Accurate and complete patient information at the point of care

Immediate access to a patient's medical record at any location connected to Sunrise

Includes previously recorded **medical history** - reducing the need for patients to repeat their medical history each time

Information about **allergies, intolerances**, illnesses, surgeries, medication orders and treatment plans

Reduces duplicate/unnecessary **diagnostic tests**

Provides access to a patient's **My Health Record**

Contains the accurate location of archived **paper-based records**

02 More coordinated and connected care

Securely shares electronic patient information with clinicians

Consolidates information about patient visits from **multiple locations**

Improves **care coordination** between healthcare facilities

Provides a **comprehensive** view of a patient's condition

03 Improved safety and quality of care

Provides the most **accurate**, up-to-date information about a patient

Reduces medication and dosage **errors** through built-in **alerts**

Triggers alerts related to **allergies / intolerances** during medication ordering

Eliminates errors caused by difficult to read **handwriting**

Allows **orders** to be placed **real-time** at the point of care

Verification and approval of orders provides **additional safety**

Decision support tools make clinical diagnosis more effective

04 Privacy and security of patient medical information

Only **authorised** healthcare staff get access

Different **levels of access** e.g. read-only

Creates a **footprint** in the system, making it easier to check who is making changes to a patient's record

Enhanced privacy features for specific patients, e.g. at-risk children
