Health in All Policies
Adelaide 2010, 12 to 15 April

South Australia's Health in All Policies Approach

Carmel Williams

Manager, Health in All Policies
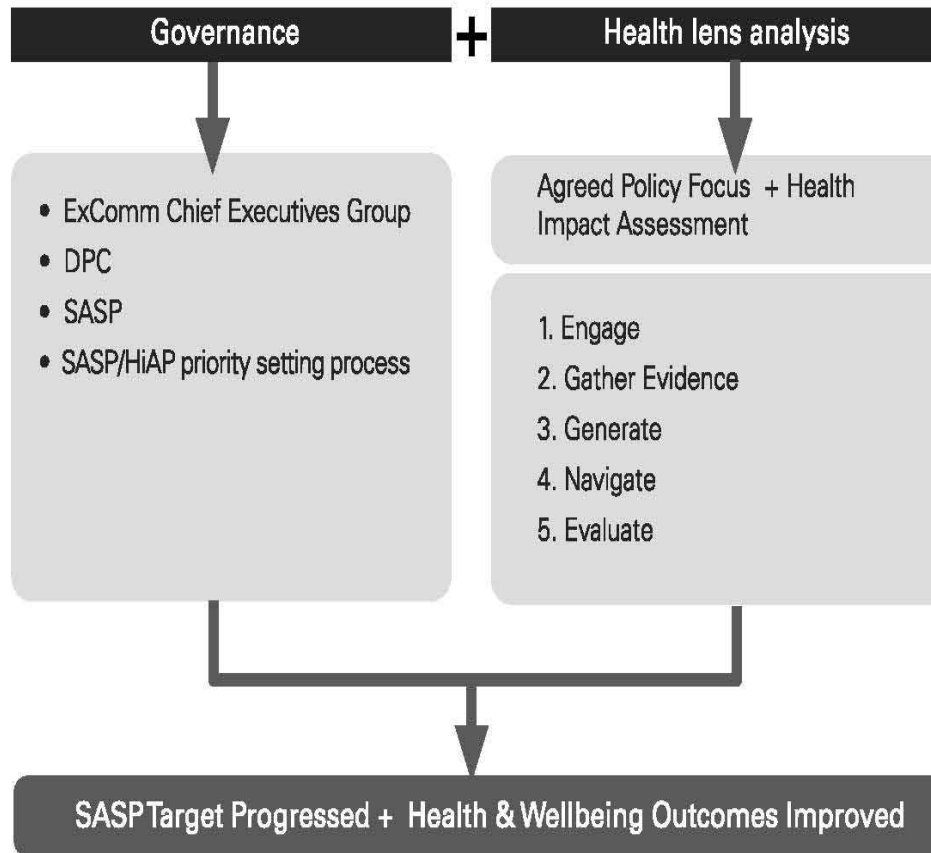

SA Health

HiAP Priority Setting Process

A priority setting process is undertaken in the third quarter of each calendar year.

Consultation occurs within:
- Department of Health
- Other Government Sectors
- The Department of the Premier and Cabinet
- Identified SASP targets presented to Executive Committee of Cabinet's Chief Executives Group for decision

World Health Organization

Government of South Australia

The Health Lens Analysis process

**Engage**—establishing and maintaining strong collaborative relationships with other sectors.

Gather evidence—establishing impacts between health and the policy area under focus, and identifying evidence-based solutions or policy options.

Generate—producing a set of policy recommendations and a final report.

Navigate—helping to steer the recommendations through the decision-making process.

Evaluate—determining the effectiveness of the HLA.

Future Issues and Challenges

- Language - that speaks to other sectors as well as health

- Clearly linking determinants to other sectors policy agenda

- Tackling health policy issues using HiAP framework

- Medium and long term impacts for health and other policy goals

- Capacity Building - adapting the approach to enable others to apply a health lens
