

Hospital Major Incident Medical Management & Support (HMIMMS)

Team Member

Hospital MIMMS (HMIMMS) is the leading course for hospital staff responsible for planning, training and managing aspects of a major incident from a hospital perspective, with course objectives including:

- > The type and incidence of major incidents and therefore the need for proper response and management planning.
- > Understand and able to implement and follow the seven principles encapsulated in the CSCATTT approach to successfully managing a major incident.
- > Understand the need for major incident training—focusing on those aspects of the plan which do not occur in day-to-day practice, i.e., command, control, communication and triage.
- > Able to deliver the medical support needed for major incidents in the hospital setting using the concept of ‘collapsible hierarchy’

Aim

Team Member HMIMMS exists to give hospital staff the knowledge to plan and train for major incidents.

Curriculum

- > One day face-to-face
- > Consists of workshops, lectures and table top exercises
- > The HMIMMS certification is valid for four years

Who should attend

HMIMMS Team Member is aimed at staff members who will be involved in the major incident team within the hospital:

- > Medical Practitioners
- > Nurses
- > Managers
- > Senior Health Administrators
